

DURECT Announces Initial Public Offering

CUPERTINO, CA, September 28, 2000 — DURECT Corporation today announced the initial public offering of 7,000,000 shares of its Common Stock at a price to the public of \$12 per share. Durect Corporation's Common Stock will be listed on the NASDAQ National Market under the symbol "DRRX" and will begin trading on September 28, 2000.

The offering is being managed by Morgan Stanley Dean Witter, Chase H&Q and CIBC World Markets, Corp. Durect has granted the underwriters a 30-day option to purchase up to an additional 1,050,000 shares at the initial public offering price to cover over-allotments, if any.

DURECT Corporation is pioneering the treatment of chronic diseases and conditions by developing and commercializing pharmaceutical systems to deliver the right drug to the right place in the right amount at the right time. DURECT's pharmaceutical systems can enable new drug therapies or optimize existing therapies based on a broad range of compounds, including small molecule pharmaceuticals as well as biotechnology molecules such as proteins, peptides and genes. DURECT's initial portfolio of products combine the DUROS® technology, a proven and patented drug delivery platform licensed for specified fields of use from ALZA Corporation with drugs for which medical data on efficacy and safety are available.

A prospectus relating to these securities may be obtained from Morgan Stanley Dean Witter, 1585 Broadway, New York, NY 10019, Chase H&Q, One Bush Street, San Francisco, CA 94104 or CIBC World Markets, Corp. 200 Liberty Street, New York, NY 01281.

A registration statement relating to these securities was filed and declared effective by the Securities and Exchange Commission. This press release shall not constitute an offer to sell or the solicitation to buy, nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of any such state.

CUPERTINO, Calif., Oct. 23 /PRNewswire/ — DURECT Corporation (Nasdaq: DRRX) today announced that it has commenced construction of a commercial manufacturing facility that is expected to meet DURECT's production needs for Phase III clinical trials currently planned for late 2001 and commercial market supply for its lead product, DUROS sufentanil. The new facility will comprise approximately 8,000 square feet and will be located at DURECT's headquarters in Cupertino, CA. The facility will house a state-of-the-art cleanroom space and an advanced manufacturing process capable of supporting clean assembly and aseptic filling operations. The facility is expected to have sufficient manufacturing capacity to provide commercial quantities of DURECT's lead product for the treatment of chronic pain, as well as provide pilot/clinical supplies for additional products under development by the company.

"We are pleased to reach this important milestone. This facility will allow us to commercially develop therapies that will improve the quality of life for patients with chronic diseases and conditions. Our pharmaceutical systems can improve patients' quality of life by eliminating more repetitive treatments, reducing dependence on caregivers and allowing them to lead more independent lives," says Jim Brown, President and CEO, at the CIBC World Markets 11th Annual Healthcare Conference in New York City, NY. Dr. Brown's presentation will be available for replay on DURECT's website under "Investor Relations" for a period of one week after the conference.

DURECT's lead product, DUROS sufentanil, will target patients with chronic pain that is stable, opioid responsive and results from a variety of causes. DUROS sufentanil will provide an alternative to current therapies for the treatment of chronic pain, as well as ensuring improved patient compliance and

convenience.

DURECT Corporation is pioneering the development and commercialization of pharmaceutical systems that will deliver the right drug to the right site in the right amount at the right time. DURECT's pharmaceutical systems combine technology innovations from the medical device and drug delivery industries with proprietary pharmaceutical and biotechnology drug formulations. These capabilities can enable new drug therapies or optimize existing therapies based on a broad range of compounds, including small molecule pharmaceuticals as well as biotechnology molecules such as proteins, peptides and genes. DURECT's initial portfolio of products combine the DUROS technology, a proven and patented drug delivery platform licensed for specified fields of use from ALZA Corporation, with drugs for which medical data on efficacy and safety are available. Founded in 1998, the Company is headquartered in Cupertino, CA. The Company's World Wide Web site can be accessed at <http://www.durect.com>.
